1: Static documentation flow will be removed from the general flow of the super admin

• Static Documentation ∨

    ○ **Static Control Plan**

    ○ **Static Report**

2: Task ReportInput Excel sheet should be in the quality assurance Tab

3: If I have not selected the profession then I should not be below create these three reports

    ○ **Static document Check List**

    ○ **Static Report Registration**

    • **Static Control Plan**

4 : Select drawing and document dropdown does not show any types It should be drawing and document two types in the drop-down also remove the "Select type " Dropdown and there

are two fields of "select Plan" remove the first one where "admin" is written as you can see in the image

5:In all "any reports" and in "static report" drawings are not showing in the drop down

6:In static reports registration the picture field is missing in the form

7: All the reports are associated with the profession please make sure if the profession is not selected then we cannot create reports Also, the same in the case of supervision Intern in quality assurance
We can view it but we cannot create it.

8:I want this data in the form should be in the list in the list as well as a static checklist on the main page

Edit Static document Check List

Profession	KP02
Comment	description here
Select B Value	Select B Value
